Weather Key Points

Regional Operations Center

Western Region

Thursday, July 14

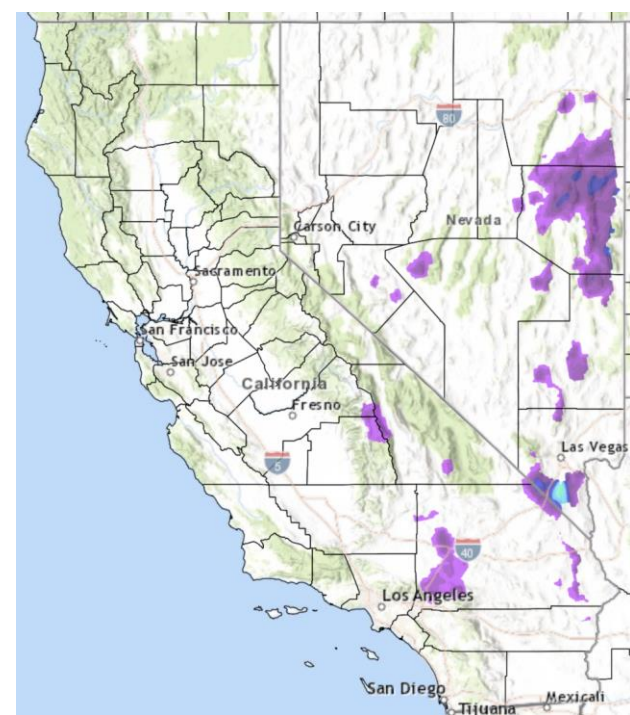

- Moderate to locally high heat risk impacts will persist for many inland areas of the state through late week and into the weekend, with a gradual cooling trend possible for early next week
 - High temperatures each day will range between 95-105°F across much of the Central Valley, with readings of 105-115°F more common for the southern deserts
- Locally elevated fire weather conditions will continue for many inland mountain and foothill locations into early next week due to persistently breezy winds and dry conditions each day
- An increase in monsoon moisture will bring a few scattered showers and thunderstorms across the southern mountains and Sierra through Sunday
- Minor coastal flooding is expected during evening high tide through Friday across some coastal locations, especially around the Bay Area and in Humboldt Bay
